

HOW TO

File your Income Tax and Assets Tax Returns Online

As at January 1, 2019 online filing of CIT and Asset tax will be mandatory. This guide will provide step by step instructions illustrating how to file any Income Tax or Asset Tax Return online.

First things first

Before attempting to file online:

- **You MUST have an eServices account**
This can be obtained via self-registration on www.jamaicatax.gov.jm OR by submitting a completed 'Electronic Account Registration Form' (available at any of our 29 Tax Offices island-wide)
- **Ensure you have the appropriate access to actually file the return, as eServices accounts have different access levels.**
- **Ensure you are registered to file a Return of the desired account type (i.e. CIT, Asset Tax etc.)**
If not, upon successful log on to the portal, simply select the hyperlink [Register for Account](#) and follow the instructions thereafter (See Figure 1 below). If this option is not available, kindly contact your eServices administrator to either grant you access or register the account on your behalf.
- **Be equipped with the correct filing period and return details.**

Deleting a Submitted Return

1. On the desired Account Type, Select the Submissions tab.
2. All Returns submitted will be listed under the heading 'Submitted', select the Return you wish to Delete.

3. Under the 'I Want To' heading, you may select the [Delete Submission](#) hyperlink as necessary.

N.B. Submitted Returns generally remain unprocessed until approximately 5:00pm of the date of submission. After this time the Return status will change from "Submitted" to "Processed". When the Return status changes to "Processed" you will no longer be able to edit or delete the submission. However, the user will be able to view, print or amend the Return.

FAQ's

1. Can I edit a Return that has already been filed?

YES. After selecting the account type and period, simply choose the hyperlink 'View or Amend Return' if it has already been processed, otherwise use the "Edit Submission" option to make the changes.

2. Can I delete a return that has already been submitted?

A submitted return generally can only be deleted before 5:00pm on the day of submission.

3. What happens if I do not see the "File a Return" option related to the period on which I need to file the return, even though I am a registered eservices user?

This generally happens if the user does not have the appropriate access to file the Return or the Return is not yet available for filing. Please verify your access rights with your eServices account administrator before attempting to file online.

4. Why am I being asked to fill out a registration form after selecting 'Manage my eServices Account' on TAJ's website?

The first login created gives you access to TAJ's portal ONLY. This initial account allows you to pay taxes/fees such as Fitness fees, Property Tax, etc. To actually file Returns for taxes such as GCT, Income Tax, GART etc., you will need access to TAJ's Revenue Administration Information System (RAIS) eServices. For further information relating to the eServices application process, see "Apply for an eServices Account" on <https://www.jamaicatax.gov.jm>.
